

CERTIFICATIONS & APPROVALS

ICC APPROVALS

Allfasteners is proud to announce that we carry select **ICC Approved products** and stand by their quality.

What does ICC-ES mean?

ICC-ES is a subsidiary of the International Code Council (ICC), the developer of the International Codes (I-Codes). Together, ICC-ES and ICC incorporate proven techniques and practices into codes and related products and services that foster safe and sustainable design and construction. For decades, ICC-ES has been the industry leader in performing technical evaluations for code compliance. Having completed hundreds of evaluations of building products, components, methods, and materials, ICC-ES has a proven track record of excellence in product evaluations

What are the advantages of using ICC Approved Products?

- ICC approved products meet code requirements and applicable industry standards
- ICC-ES evaluation reports are available for all approved products which include all test reports, calculations, installation instructions, identification markings, etc.

Where can I find the ICC-ES Evaluation reports on these select AF products?

All ICC-ES evaluation reports are on Allfasteners.com > individual product page > downloads. Or feel free to contact any AF representative for help.
